

Index

- Arterial occlusions, multiple, homocystinuria presenting as, 251
- Ascites and respiratory disease, deep accumulation of fat mimicking, in mediastino-abdominal lipomatosis, some clinical aspects and metabolic studies of *in vitro*, 453
- Autosomal dominant polycystic kidney disease, symptoms and clinical findings, 511
- Bacteræmia, pneumococcal, 259
- Calcitonin, comparison of the renal and skeletal actions of in the treatment of severe hypercalcaemia of malignancy, 359
- Calcium absorption, intestinal, studies on in patients with idiopathic hypercalciuria, 69
- Calcium antagonists, their mechanisms and therapeutic indications and reservations, 1
- Cardiovascular disease, and the reason for reduced mortality associated with ulcerative colitis, 351
- Central nervous system, infection of by *Listeria monocytogenes*, 331
- Central nervous system, tuberculosis of, 81
- Cirrhosis, complicating, hepatocellular carcinoma in the non-cirrhotic liver compared with that in, 391
- Colitis, ulcerative: why is the mortality from cardiovascular disease reduced?, 351
- Computed tomography and ultrasound, can they replace high-dose urography in patients with impaired renal function?, 411
- Crystal deposition and inflammation, 309
- Cytomegalovirus infection, the problem of in renal allograft recipients, 341
- Diabetes mellitus, a prospective study of heart disease in, 55
- Dietary sodium, the sceptics' position on whether it should be reduced, 427
- 1,25-Dihydroxy vitamin D₃, circulating concentrations of, effect of steroids and exogenous vitamin D₃ on, and studies of the hypercalcaemia of sarcoidosis, 165
- Elderly, problems of tuberculosis in the, 497
- Fat, deep accumulation of mimicking a respiratory disease and ascites, and mediastino-abdominal lipomatosis, some clinical aspects and metabolic studies of *in vitro*, 453
- Fluoride, a review of its use in the treatment of osteoporosis, 145
- Giardiasis, a review of its epidemiology,
- pathogenetic mechanisms and host responses, 29
- Glomerulonephritis, patterns of in Zimbabwe: survey of disease characterised by nephrotic proteinuria, 109
- Gonadotrophin-releasing hormone, the therapeutic potential of, and hypothalamic-releasing hormones, 17
- Heart disease, a prospective study of in diabetes mellitus, 55
- Hepatitis, chronic, are the causes and presentation of changing?, 279
- Hepatitis, tuberculous, a clinical review of 96 cases of, 465
- Hepatocellular carcinoma in the non-cirrhotic liver, compared with that in complicating cirrhosis, 391
- Homocystinuria presenting as multiple arterial occlusions, 251
- Hormones, hypothalamic-releasing, and the therapeutic potential of gonadotrophin-releasing hormone, 17
- Hypercalcaemia of sarcoidosis, studies of the, and the effect of steroids and exogenous vitamin D₃ on the circulating concentrations of 1,25-dihydroxy vitamin D₃, 165
- Hypercalcaemia, severe, of malignancy, comparison of the renal and skeletal actions of calcitonin in the treatment of, 359
- Hypercalciuria, idiopathic, pathogenesis of, and the evidence for parathyroid hyperfunction, 41
- Hypercalciuria, idiopathic, studies on intestinal calcium absorption in patients with, 69
- Hypertension, malignant, recovery in presenting as acute renal failure, 439
- Hypertriglyceridaemia, uraemic, the effect of renal transplantation with a minimal steroid regime on, 271
- Hypothalamic-releasing hormones: therapeutic potential of gonadotrophin-releasing hormone, 17
- IgA associated nephropathy, mesangial, the clinical course of in adults, 227
- Immunogenetic and clinical studies in multi-case rheumatoid families, 479
- Inflammation and crystal deposition, 309
- Intestinal calcium absorption, studies on in patients with idiopathic hypercalciuria, 69
- Iran, immunological and clinical aspects of kidney disease in endemic typhoid fever in, 101

New Series, Vol. LIII, No. 209, Winter 1984

Calcium Antagonists. Mechanisms, Therapeutic Indications and Reservations. By Lionel H. Opie	1
Hypothalamic-releasing Hormones: Therapeutic Potential of Gonadotrophin-releasing Hormone. By R. N. Clayton	17
Giardiasis: Review of Epidemiology, Pathogenetic Mechanisms and Host Responses. By John Gillon	29
The Pathogenesis of Idiopathic Hypercalciuria: Evidence for Parathyroid Hyperfunction. By Richard A. Evans, Ellen Hills, Stanley Y. P. Wong, Lyndsay E. Wyndham, Yvonne Eade and Colin R. Dunstan	41
A Prospective Study of Heart Disease in Diabetes Mellitus. By Leonard M. Shapiro	55
Studies on Intestinal Calcium Absorption in Patients with Idiopathic Hypercalciuria. By V. M. Duncombe, R. W. E. Watts and T. J. Peters	
Tuberculosis of the Central Nervous System. By M. Traub, A. C. F. Colchester, D. P. E. Kingsley and M. Swash	81
Immunological and Clinical Aspects of Kidney Disease in Endemic Typhoid Fever in Iran. By P. Khajehdehi, A. Tastegar and A. Kharazmi	101
Patterns of Glomerulonephritis in Zimbabwe: Survey of Disease Characterised by Nephrotic Proteinuria. By Janet Seggie, P. G. Davies, D. Ninin and Joan Henry	109
A Survey of Vitamin D Deficiency in Gastrointestinal and Liver Disorders. By J. B. Dibble, P. Sheridan and M. S. Losowsky	119
Secondary Malignant Synovitis: Report of Three Cases and Review of the Literature. By P. Newton, A. T. Freemont, J. Noble, N. Scott, D. M. Grennan and R. C. Hilton	135

No. 210, Spring 1984

Should We Use Fluoride to Treat Osteoporosis?: a Review. By John A. Kanis and Pierre J. Meunier	145
Studies of the Hypercalcaemia of Sarcoidosis: Effect of Steroids and Exogenous Vitamin D ₃ on the Circulating Concentrations of 1,25-Dihydroxy Vitamin D ₃ . By L. M. Sandler, C. G. Winearls, L. J. Fraher, T. L. Clemens, R. Smith and J. L. H. O'Riordan	165
Vasculitis Affecting the Kidney: Presentation, Histopathology and Long-term Outcome. By A. Serra, J. S. Cameron, D. R. Turner, B. Hartley, C. S. Ogg, G. H. Neild, D. G. Williams, D. Taube, C. B. Brown and J. A. Hicks	181
Systemic Lupus Erythematosus with Membranous Lupus Nephropathy in Malaysian Patients. By F. Wang and L. M. Looi	209
The Clinical Course of Mesangial IgA Associated Nephropathy in Adults. By Kathleen M. Nicholls, Kenneth F. Fairley, John P. Dowling and Priscilla Kincaid-Smith	227

Homocystinuria Presenting as Multiple Arterial Occlusions. By G. Newman and J. R. A. Mitchell	251
Pneumococcal Bacteraemia — a Continuing Challenge. By L. D. Gruer, M. W. McKendrick and A. M. Geddes	259
The Effect of Renal Transplantation with a Minimal Steroid Regime on Uraemic Hypertriglyceridaemia. By C. Turgan, G. I. Russell, F. Baker and J. Walls	271
Are the Causes and Presentation of Chronic Hepatitis Changing? An Analysis of 104 Cases Over 15 Years. By R. A. Bradbear, W. N. Robinson, W. G. E. Cooksley, J. W. Halliday, O. D. Harris and L. W. Powell	279
<i>Staphylococcus aureus</i> Meningitis. By I. W. Fong and P. Ranalli	289
Survival in Elderly Patients Presenting with Uraemia. By W. J. W. Mallinson, S. J. Fleming, J. E. H. Shaw, L. R. I. Baker and W. R. Cattell	301

No. 211, Summer 1984

Crystal Deposition and Inflammation. By Paul Dieppe	309
Shock Lungs: The Post-traumatic Respiratory Distress Syndrome. By E. Nigel Wardle	317
Infection of the Central Nervous System by <i>Listeria monocytogenes</i> : a Review of 54 Adult and Juvenile Cases. By S. S. Pollock, T. M. Pollock and M. J. G. Harrison	331
The Problem of Cytomegalovirus Infection in Renal Allograft Recipients. By J. B. Kurtz, J. F. Thompson, A. Ting, A. Pinto and P. J. Morris	341
Ulcerative Colitis: Why is the Mortality from Cardiovascular Disease Reduced? By S. N. Gyde, P. Prior, F. Alexander, S. Evans, K. Taylor, W. G. John, J. A. H. Waterhouse and R. N. Allan	351
Comparison of the Renal and Skeletal Actions of Calcitonin in the Treat- ment of Severe Hypercalcaemia of Malignancy. By D. J. Hosking and D. Gilson	359
Renal Function during Lithium Treatment. By Derek G. Waller, J. Guy Edwards, Ramesh Naik and A. Polak	369
Poor Prognosis Non-Hodgkin's Lymphoma in the Elderly: Clinical Presenta- tion and Management. By G. M. Mead, F. R. Macbeth, C. J. Williams, R. D. H. Ryall, D. H. Wright and J. M. A. Whitehouse	381
Hepatocellular Carcinoma in the Non-cirrhotic Liver: a Comparison with that Complicating Cirrhosis. By W. M. Melia, M. L. Wilkinson, B. C. Portman, P. J. Johnson and Roger Williams	391
The Liver in Systemic Lupus Erythematosus. By Marian H. Miller, Murray B. Urowitz, Dafna D. Gladman and Lawrence M. Blendis	401
Can Ultrasound and Computed Tomography Replace High-dose Urography in Patients with Impaired Renal Function? By Judith A. Webb, R. H. Reznek, F. E. White, W. R. Cattell, I. Kelsey Fry and L. R. I. Baker	411

No. 212, Autumn 1984

Should Dietary Sodium be Reduced? The Sceptics' Position. By J. J. Brown, A. F. Lever, J. I. S. Robertson and P. F. Semple	427
---	-----

Recovery in Malignant Hypertension Presenting as Acute Renal Failure. By C. G. Isles, A. McLay, and J. M. Boulton Jones	439
Mediastino-abdominal Lipomatosis: Deep Accumulation of Fat Mimicking a Respiratory Disease and Ascites. Clinical Aspects and Metabolic Studies <i>in vitro</i> . By G. Enzi, M. Digito, R. Marin, R. Carraro, A. Baritussio and E. Manzato	453
Tuberculous Hepatitis: A Clinical Review of 96 Cases. By A. R. Essop, J. A. Posen, J. H. Hodkinson and I. Segal	465
Clinical and Immunogenetic Studies in Multicase Rheumatoid Families. By D. M. Grennan, P. Dyer, W. Dodds, A. Read, M. Heaney, R. Clague and R. Harris	479
Acute Renal Failure due to Leptospirosis: Clinical Features and Outcome in Six Cases. By C. G. Winearls, L. Chan, Joyce D. Coghlan, J. G. G. Ledingham and D. O. Oliver	487
The Problems of Tuberculosis in the Elderly. By A. D. Mackay and R. B. Cole	497
Autosomal Dominant Polycystic Kidney Disease: Symptoms and Clinical Findings. By Jovan Milutinovic, Philip J. Fialkow, Lawrence Y. Agodoa, Leon A. Phillips, Thomas G. Rudd and Jean I. Bryant	511
The Association of Physicians of Great Britain and Ireland 1984 Seventy- Eighth Annual General Meeting	523
